

## House Speaker John Boehner: New Bill Helps Businesses, Individuals Fight Cyberattacks

“Every day, thousands of American families and job creators are targeted by Internet hackers and countries like China who are out to steal, destroy or disrupt one of our economy's most vital assets: information.”

## POLITICO

### Former FCC Chairman Michael Powell: To fight cyberthreats, let's share

“As we know, information flow among companies in private industry, and between industry and appropriate governmental personnel, is essential. Unfortunately, there are inadequate mechanisms in place for critical information-sharing to respond to a cyberattack. This puts the nation at great risk.

## Los Angeles Times

### Los Angeles Times: House cybersecurity sponsors respond to privacy concerns

“Leaders of the House Permanent Select Committee on Intelligence pledged Tuesday to amend their cybersecurity bill, the Cyber Intelligence Sharing and Protection Act, to address the main concerns raised by civil libertarians and privacy advocates.”

## THE HILL

### The Hill: Changes announced to cybersecurity bill

“Changes announced to cybersecurity bill...Reps. Mike Rogers (R-Mich.) and Dutch Ruppersberger (D-Md.) said Tuesday they will offer several amendments to the Cyber Intelligence Sharing and Protection Act (CISPA) to address the concerns of privacy groups.”

## National Journal

### National Journal: CISPA Sponsors Propose Privacy Protections Ahead of House Vote

“CISPA Sponsors Propose Privacy Protections Ahead Of House Vote...On Tuesday Rogers and Ruppersberger moved to quell those concerns, announcing changes that would limit how

the government can use the information it gathers; and allow agencies to remove personally identifiable information.”

### **PCWorld: CISPA Sponsors Support Amendments Addressing Privacy Concerns**

“The sponsors of a controversial cyberthreat information-sharing bill will offer new amendments to address privacy concerns, with changes focused on limiting how government agencies can use information shared by private companies, as the bill comes to a vote in the U.S. House of Representatives this week.”
