

Cyber, Space & Intelligence Association

November 30, 2011

The Honorable Mike Rogers
Chairman
Permanent Select Intelligence Committee
U.S. House of Representatives

The Honorable C.A. Ruppertsberger
Ranking Member
Permanent Select Intelligence Committee
U.S. House of Representatives

Dear Chairman Rogers and Ranking Member Ruppertsberger,

Cyber, Space & Intelligence Association lauds you for providing leadership to the Cyber Security community and the nation by sponsoring the “Cyber Intelligence Sharing and Protection Act of 2011.”

The Association admires your bi-partisan approach to policy and legislation, as well as your strategy of proposing a bill which is tightly focused on a critical issue, sharing threat data which can be readily used by companies who need to counter Cyber attacks. Coupling this with removing policy and legal obstacles is the type of pragmatic, real world solution industry needs.

Cyber, Space & Intelligence Association fully supports your bill.

Sincerely,
Richard Coleman
