

Office of the Director of National Intelligence

MEMORANDUM FOR DISTRIBUTION

SUBJECT: (U) Congressional Notification: Rescission of Intelligence Community Assessments on Anomalous Health Incidents (AHI) and Directed Review

REFERENCES: A. (U) Intelligence Community Directive 203, Analytic Standards, 31 March 2026  
B. [REDACTED]

(U) Consistent with Congress's request for a comprehensive review of anomalous health incidents (AHI), the Director of National Intelligence (DNI) has directed the National Intelligence Council (NIC) to rescind two prior Intelligence Community Assessments (ICAs)—ICA 2025-00008 and ICA 2023-02286—due to the ICAs failing to meet the established Intelligence Community (IC) Analytic Standards in Reference A. This recall aligns with the requirements and procedures under Reference B.

(U) Key shortfalls in the rescinded ICAs include:

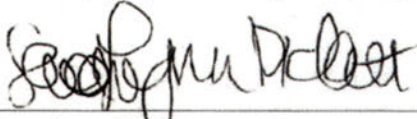

- Selective exclusion of intelligence and evidence which did not support the analytic conclusions;
- Mischaracterization of sources to suppress alternative analyses;
- Omission of information necessary to understand source quality and reliability;
- Reliance on an ethically flawed medical study without noting methodological critiques; and
- Limiting intelligence collection to maintain an analytic line which relied on absence of evidence.

[REDACTED]

(U) Future IC assessments on AHIs will adhere to rigorous ethical standards, incorporating all available intelligence sources and engaging a broad range of experts from agencies including the CIA, Department of War AHI Cross-Functional Team, DIA, FBI, DEA, NGA, NGIC, NASIC, and NSA.

SUBJECT: (U) Congressional Notification: Rescission of Intelligence Community Assessments on Anomalous Health Incidents (AHI) and Directed Review
